

# HBF HINGED STOP COLLAR WITH DRAW BOLT

## ENGINEERING SOLUTIONS FOR ONSHORE WELLS

Draw bolt fitted stop collar for quick installation in onshore wells. The HBF is developed to complement our range of hinged centralizers for vertical and horizontal sections.

Made from the same material as our centralizers, the HBF is developed for use in less deviated wells.

The holding action of the draw bolt tightening mechanism provides strong hold without damaging the casing. The HBF is recommended for use with all standard casing grades.

## CENTRALIZERS

HBF stop collars are developed as counterparts to Centek's centralizers for less challenging onshore wells.

## FEATURES AND BENEFITS

- Centek QA
- Quick and secure installation
- Friction grip does not damage casing
- For use with standard casing grades

## TARGET APPLICATIONS

- Onshore wells
- Horizontal, vertical and deviated sections

## PERFORMANCE RATINGS
