

# OBS SINGLE PIECE, BOW SPRING CENTRALIZER

## ENGINEERING SOLUTIONS FOR LESS CHALLENGING WELLS

The OBS single piece, bow spring centralizer has been reintroduced for onshore vertical, horizontal or deviated wells

The OBS is designed to be robust in tough casing running environments.

The OBS unit is shorter compared to the premium Centek S2 but maintains a high restoring force to meet the needs of most well designs. Its single piece construction provides strength downhole, while the proprietary heat treatment process gives the bows flexibility.

## STOP COLLARS

The OBS has a corresponding range of high strength stop collars.

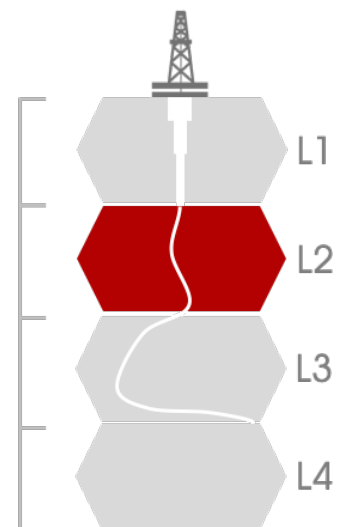

## KEY PRODUCT BENEFITS

- Good standoff
- High restoring force
- Exceeds API 10D version 7

## TARGETED APPLICATIONS

- Onshore
- Vertical, deviated, and horizontal wells
